BRYAN'S FIRST GUN FIRED AT DES MOINES

All His Previous Efforts Have Been Mere Preliminary Skirmishing

He Favors Tariff Revision but is Afraid to Trust the Work to the Republican Party--During His Address the Platform Collapsed.

Des Moines, Aug. 21.—Comparing the attitude of the two dominant parties on the tariff question, Bryan at the base ball park in this city tonight before a vast audience fired the first gun of his campaign.

He attacked the republican tariff revision and asked if the democratic party was not justified when it included in its platform a declaration that the "people cannot safely entrust the execution of this important work to a party which is so deeply obligated to the highly protected interests as the republican party."

"The whole aim of our party," he said in summarizing, "is to secure justice in taxation. We believe each individual should contribute to the support of the government in proportion to the benefits which he receives under the protecting government. We believe that revision of the tariff approached gradually, according to the plan laid down in our platform, will equalize the burdens of taxation still more. If the republican party is to have the support of the people who find pecuniary profit in the exercise of the taxing power, as a private asset in their business we ought to have the support of that large majority of people who produce the nation's wealth in time of peace, protect the nation's flag in time of war, and ask for nothing from the government but even handed justice."

While Bryan was speaking the temporary platform on which were seated

several hundred people, collapsed. Nobody was hurt and there was no panic, but Bryan was interrupted five minutes while arrangements were made for him to continue speaking from the grand stand, where he finished his address.

Upon conclusion of the tariff speech he addressed an overflow crowd in the auditorium and emphasized his views regarding the election of senators by a vote of the people. Bryan made an unexpected call today on Governor Cummins, and was cordially received. Bryan left for Chicago where he will remain three days and hold frequent conferences with campaign managers.

SHERMAN ON HIS TRAIL.

New York, Aug. 21.—For the purpose of selecting from the republican membership in congress the most effective speakers for use in the national campaign a conference was held tonight between Hitchcock and Sherman. The national acquaintance which Sherman has with these men made his counsel extremely valuable to Hitchcock.

Speaking of the tour which Sherman will undertake, beginning the last of September it will be more extensive than has been expected. It is likely he will deliver his addresses, mostly in the central and western states. It is planned now to have him follow Bryan at several important meetings and reply to the democratic candidate's discussion of national issues.

MURDERED IN MEXICO

Washington, Aug. 21.—Consul Maxwell Morehead, at Acapulco, Mexico, has notified the state department of the death of Grant U. Price, of Winona, Minn., from a gunshot wound inflicted by a Mexican named Manuel Salda, at Pico de la Cruz, near Acapulco. Price was an employee of a Mexican Pacific company of Seattle. He died last night. The Mexican authorities are making efforts to capture Salda.

STRIKING FOREIGNERS

Are Mixing It Up With Other Foreigners

Italians In the Employ of The Northern Pacific Make Trouble.

Tacoma, Aug. 21.—Maddened at the sight of forty Hindu strikebreakers filling their places in the Northern Pacific yards, about fifty Italian laborers armed with stones, clubs and other weapons, twice today charged the Hindus in a pitched battle, but were repulsed by the latter with bullets. One Hindu is in the city hospital with a bruised face and the foreman of the track gang has a lump on his forehead from a rock thrown by an Italian.

The leader of the strikers has promised Mayor Linck that there will be no further disturbance tonight, and tomorrow he will have a conference with the railroad officials. The strikers say they came from St. Paul to work at \$1.50 per day and were promised return transportation. They claim the company has reduced their pay to \$1.25 per day and refused to keep its contract about transportation. The leader of the strikers says he will not vouch for the behavior of his countrymen after Saturday night. Tonight the railroad officials declare the wages of the Italians will not be increased and that the Hindus will be given every protection.

A JAP INCIDENT.

Seattle, Aug. 21.—Sheriff Smith was called upon today by the Northern Pacific to send ten deputies to Auburn tomorrow to prevent threatened trouble between the striking Italian section hands and the Japanese, with whom it is proposed to replace the strikers. A few days ago thirty Italians struck when a demand for higher wages was refused. They were ordered out of their shanties but refused to go. The company was told the Italians would shoot any man who attempted to evict them, or any Japanese who was put to work.

The work of assembling the aeroplane will begin tomorrow and within ten days a preliminary flight will be made. It will probably be two or three weeks before official flights will be made. GOOD GRIST EMERGING FROM GRAND JURY MILL

Several Indictments Found Against Springfield Rioters, Many More Expected

Greatest Disorder Now Seems to be In the Small Towns Nearby--All Negroes Ordered Out of Buffalo Ill. by Monday Noon.

Springfield, Aug. 21.—Six more alleged riot leaders have been caught in the grand jury net here. That inquisitorial body tonight returned indictments against six persons, the documents charging 20 separate offenses. All were predicated upon the trouble at Loper's restaurant and were identical with those charged against Kate Hayward in the indictment yesterday.

"We have only made a fair start," said United States Attorney Wines tonight. "With the character of the evidence that is coming in and the seeming determination of the grand jury to rid the community of the lawless element, there is every chance that half a hundred or more indictments will be returned in the next few days."

Those indicted today are: Ernest Humphrey, huckster; Rudolph Berdweyer, mechanic; John Schiele, grocery clerk; William Sutton, cabman; Herbert Carey, blacksmith and one other man whose identity is kept a secret because he is understood to have fled.

Humphrey, Schiele, Berdweyer and the fugitive were each indicted four times for malicious mischief and riot; Carey and Sutton were made the subject of two indictments each, the same offenses being charged. Judge Craghead fixed the bail at \$2000 on each indictment.

Among the witnesses today were,

Harry Loper. He testified at the coroners inquest yesterday that he had little recollection of the identity of members of the mob who destroyed his establishment, but it is stated tonight that he has made important revelations to the grand jury.

Small towns of the county continue to be in danger. At Buffalo, 15 miles from here, the following notice has been posted at the interurban trolley line station:

"All niggers wanted out of town by Monday 12 a. m., sharp."

(Signed) "Buffalo Sharp-Shooters."

Complaints filter in daily from the mining camps, coming from whites and negroes alike. Each race seems distrustful of the other and Sheriff Werner is puzzled as to how to cope with the situation. The city is guarded tonight by deputy sheriffs and the police with the seventh infantry held in reserve.

KLEIN SOUND OVER.

Kankakee, Ill., Aug. 21.—Private Klein of the First regiment, U. S. G., charged with killing Earl Nelson with a bayonet Saturday while enroute to Springfield, was brought into court this afternoon. Klein waived examination and was bound over to the grand jury. He gave bonds of \$10,000 furnished by a surety company and was released.

MONSTROUS CRIME FIENDS IN UNIFORM

Terrible Story Comes From a Soldiers' Camp in Wyoming.

Denver, Colo., Aug. 21.—A special from Laramie, Wyoming, says that while every effort has been made by the authorities at Camp Emmett Cravens, the military grounds, to keep the fact a secret, it is known that an atrocious crime was committed last Sunday by members of an artillery battery, who assaulted a young woman, leaving her bruised and unconscious upon the ground.

According to the story one of the commissioned officers of the twenty-first regiment was escorting a young woman, when they were attacked by thirty-two men of the artillery battery. The officer was beaten to insensibility with a gun and the unfortunate woman was dragged to an isolated spot and assaulted. After lying half dead for hours, the victim revived and succeeded in crawling to a house some distance away and told her story.

Twenty-six of the men alleged to have been implicated are under arrest and are chained together in the camp prison. They are under constant guard to prevent lynching as the sentiment in the camp is strong against them. Six of the alleged assailants escaped, but three were apprehended at Rawlins today. The other three are still at large.

Fifty Years Ago
Fifty years ago but a very few millions of dollars were invested in railroads. Today they span every state and territory and require the services of scores of thousands of bookkeepers and stenographers.
Fifty years ago the mail between some of our largest cities could be carried in an ordinary stage coach, while today it requires train after train, carrying nothing but mail, to perform the same service and thousands of stenographers are employed to conduct this great and rapidly growing correspondence.
Fifty years ago not a typewriter was manufactured, sewing machines were in their infancy, modern farming implements were almost a dream, bicycles and automobiles were unheard of and thousands of our other modern conveniences were then only in the minds of their inventors.
Fifty years ago in order to secure a responsible position with any old established business concern, the young man must either possess influential friends, family relations or cash. Today, a thorough, practical, complete business education combined with character and energy, will open the doors of the best positions in the United States. This can be vouched for by the thousands of poor boys who have risen by this means from poverty and obscurity to wealth and influence.
All of this progress has called for more bookkeepers and stenographers and 500,000 bookkeepers performing this same work and it is estimated that over 50,000 more thoroughly trained ones could be placed at once.
No matter what business or profession the young person of today expects to enter he must have a thorough business training in order to keep up with the progress of the age.
A great many are now making arrangements to secure this training by entering The Lamson Business College at the opening of the Fall Term, September 14th.
